TULLY WATER QUALITY FIELD DAY

Join the Tully sugarcane extension community for our second annual Water Quality Field Day.

When: Tuesday, December 11 2018

Time: 7.30am 'till lunch

Where: Tully Mill Rec Hall, Writ Lane

Important information

Please arrive at 7.30 for a 7.45am start – we'll have the coffee ready.

Field tours will be run concurrently in the morning and we will combine groups for joint sessions at Rec Hall from around 11.30am.

Please RSVP to

TCPSL **E:** TCPSLadmin@sugarresearch.com.au

Cane Growers Tully **T:** 07 4068 4900

AGENDA

Morning Field Tours

Tully Sugar Site / On farm management: *Protecting our chemicals 2018 update, Stool Zippa in action, Dual and band spraying field walk, getting the most from a legume fallow, understanding 2, 4-D legislation.*

Tully Syndicate Major Integrated Project (MIP) site with Fiona George: *Understanding productivity constraints, integrated monitoring program and equipment, taking a grab sample, wetland site visit and explanation, MIP from a grower's perspective.*

Back at the Rec Hall

2017-18 Tully water quality monitoring update and discussion with Dr. Ryan Turner (DES, End of Catchment Loads Monitoring Program) and Dr. John Armour (MIP monitoring program/Rob Lait and Associates).

Why water quality matters to me, a growers' perspective.

In it together: *closing remarks.*

The Tully Water Quality Field Day is supported by SRA and TCPSL through the Protecting our Chemicals for the future project, Tully Sugar, WTSIP, MIP and QDAF.
